About RVSKVV

The Rajmata Vijayaraje Scindia Krishi Vishwavidyalaya, Gwalior was established by Government of Madhya Pradesh Vide Ordinance No. 4 of 2008 notified in the Extraordinary Gazette No. 507 dated 19th August 2008 as second Agricultural University by bifurcating the JNKVV, Jabalpur. As per RVSKVV act (No. 4, year 2009), the horticulture and veterinary science & animal husbandry. The research activities are operated through five Zonal Agricultural Research Stations (Morena, Khargone, Jhabua, Indore and Sehore); four Regional Agricultural Research Stations (Gwalior, Mandsaur, Ujjain and Khandwa) and 4 special research stations (Entkhedi, Bagwai, Jaora and Badwah) having 22 All India Coordinated Research Projects and several adhoc projects to enhance the productivity and profitability of agriculture system. Transfer of technology is the part of extension activities carried out by 21 Krishi Vigyan Kendras.

The overall climate varies from semi arid to sub humid with hot summer, cool and dry winter and 600-1000 mm mean rainfall. The geographical area of the state under the jurisdiction of university contains three types of soils varying from alluvial to medium and heavy black soils spread over six agro climatic zones i.e. Gird Zone, Malwa Plateau, Nimar Valley, Vindhya Plateau, Jhabua Hills and Bundelkhand Zone...

Mission:

To conduct education research and extension activities for enhancing productivity optimization of profit and sustainability of agricultural production system and improving rural livelihood in Madhya Pradesh.

Mandate:

To serve as a centre of higher education and research in the field of agriculture and allied sciences. To disseminate technology to farmers, extension personnel and organizations engaged in agricultural development through various extension programmes.

Know your Vice Chancellor

The Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya was established by Government of Madhya Pradesh on 19th August, 2008 as second Agricultural University by bifurcating the JNKVV, Jabalpur. University has grown into a diverse innovative institution of higher education, pursuing excellence in the fields of teaching, research and extension in agricultural sciences. Over the years, the university has sought to make a major contribution in improving the quality of human life in the region through its research-led initiatives in agriculture, environmental related issues and a host of other modern-day challenges including the production of quality seed and genuine planting material. The structure of its activities is rationalized, with emphasis on its distinguished strengths, management of education and development of quality man power and in this direction notable success has been achieved. In addition to the diverse activities related to agricultural sciences, RVSKVV has a strong emphasis on farmers skills improvement and empowerment through the twenty two VKVs in various districts. Teaching and learning quality has been steadily improving in recent years and a large number of capable man powers has been trained here. With extraordinary explosion of knowledge, speedy travel, evolution in information technology and increasing awareness of global concerns, the University has felt the need and realized the value of establishing closer ties with national and international organizations, which will in future ensure attaining new heights by this University. The University has hosted a number of National Level activities which has certainly left an imprint on the national map. In due course of time, the accreditation of the university also done by the ICAR, New Delhi.

Brief Profile:

Prof. Arvind Kumar Shukla, a renowned academician and researcher has been working as Vice Chancellor of RVSKVV, Gwalior. Prior to that he has served as **Project Coordinator** (AICRP, Micronutrients (2011 to 2022); **Principal Scientist/ Professor**, ICAR-NRRI, Cuttack (2008-11); **Senior Scientist/Associate Professor**, ICAR-IIFSR, Meerut (2006-2008); **Senior Scientist** at ICAR-CPRI, Shimla (2003-2006); **Scientist** at ICAR-IIFSR, Meerut (1996-1998); **Assistant Professor** at GBPUAT, Pantnagar (1995-1996). Born in Bedipur, Bilhaur, Kanpur District of Uttar Pradesh, India on 03 January, 1966. Prof. Shukla has obtained his **B.Sc. (Ag.) & AH honours** (1986) 84.2%, with university silver medal. **M.Sc. (Ag.)** in Soil Science & Agricultural Chemistry, 1988- CGPA-10/10, with Chancellor gold medal and **Ph.D.** in Soil Science & Agricultural Chemistry with CGPA 8.78/10 – CS Azad University of Agriculture and Technology (1993). He did **Executive/Management Leadership Programme** at NAARM, Hyderabad (2013, 2016).

Awards and Recognition:

Dr. Shukla has bagged 25 honours and awards including **Rafi Ahmed Kidwai Award (2020)** for outstanding contribution in Natural resource management. **NAAS-Fellow (2017)** for outstanding research on micronutrients. **NAAS Recognition Award (2020)** for excellent contribution in Soil, water and environmental Science. **International Zinc Award-Brussels, Belgium (2014)** for establishing link between soil health and human health. **International Plant Nutrition Institute Award Norcross, USA (2016)** for enhancing resource use efficiency and ICAR - **Chaudhary Devi Lal Outstanding AICRP award (2016)** for excellent work and outstanding leadership. **ISSS -Fellowship Award (2021)** and **ISSS -Young Scientist Award (2005)** for outstanding work in soil science along with several other awards for fertilizer management and yield maximization, etc.

Roles and Responsibilities:

As **Project Coordinator, AICRP** on Micro and secondary nutrients and pollutant element. **Developing, ensuring execution and monitoring** technical programme at 22 centres across the country. **Administrative and financial management experience:** prepared EPC memo of the AICRP-MSPE scheme for 12th plan (2012-17) budget Rs 4458.27 lakhs and MTP (2017-20) budget 2222.32 lakhs and 13th plan draft (2021-26) budget Rs. 7789.36 lakhs. **Organization of seminar/symposia/workshop:** Served in several committees at National level and organized National and International Meetings, Workshops/ Seminars/ Symposia/ Conference etc as chairman, organising secretary, member, board of studies and member and life members of many professional societies. **Worked in close collaboration** with International Rice Research Institute (IRRI), Philippines, International Plant Nutrition Institute, Canada and, International Maize and Wheat Improvement Centre* (CIMMYT), All India Institute of Medical Sciences (AIIMS), Bhopal in the field of soil science and Natural Resource Management and linking soil health with human health. Opened 5 New centres of AICRP-MSPE for basic and frontier areas research (Biofortification and Nano technology).

Significant Research Achievements:

Performed multidisciplinary research at various institutions through 21 externally funded projects as PI/Co-PI with research grants of Rs.3768 lakhs by agencies including World bank (NAIP-NATP), ADB, CIMMYT, IRRI, International Plant Nutrition Institute, International Zinc Association, ICRIASAT, DST, ICAR, NASF, MoA&FW, FAO etc.; Institutional Research Projects – 14; Research Project Guided and Monitored – 12.

Performed soil health appraisal - across the country (640 districts) and developed e-atlas on **"Micro-secondary nutrients status in India"** and State atlases in vernacular languages (including MP), provided technical advice & back-stopping to GOI on status (deficiency/sufficiency) of micro and secondary nutrients and their management across the country.

Developed PoP for INM, SSNM and balanced use of fertilizer, **Precision Agriculture, Conservation Agriculture, Organic farming, Climate change**, Bio fortification and Micro- and secondary nutrients management in different crops and cropping systems.

Identified hot spot of heavy metal and pollutant elements in the country and their **bio flow in soil/water-plant-animal system**. Revised critical limits of micro and secondary nutrients and developed soil management zone for precise nutrients recommendations.

Given novel concept on linking soil health with animal/human health and their execution in collaboration with other SAUs, veterinary institution and medical colleges, including (AIIMS, Bhopal) for innovative research.

Special Assignments:

Member Research Advisory Committee- ICAR-CAFRI, Jhansi (2021-24) IGKV, Raipur (2017). **Member Institute Management Committee-** ICAR-IISS, Bhopal-2011-2014, NBSSLU-2018-21, ICAR-NHSAD- 2020-22. **Member, Board of Studies-** St. Paul Sr. Secondary School-2014-2020. **Vice President-** Indian Society of Soil Science-2017-2018. **Member, Advisory Board-** Fertilizer Association of India-2011-till date. **MoUs signed (10 nos.)** with different agencies/institution including with AIIMS, Bhopal and Pramukh Swami Medical College, Anand, Gujarat. **Member secretary** accreditation Committee of ICAR-IISS, Bhopal for ISO 9001-2000 certification. **Represented India in SAARC Regional Consultation meeting** on "Impact of Agricultural Chemicals input on the environment and human health" in South Asia on 21-22 April, 2021.

Coordinated Tribal Support Programme:

Coordinated the farmer's Need-based Research tribal support programme in Madhya Pradesh, Gujarat, Himachal Pradesh, Jharkhand, Manipur, West Bengal, Tamil Nadu, Telangana, Maharashtra, Bihar and Assam for livelihood of tribal people.

Examination and University Assignments:

Worked as EXPERT MEMBER/panellist for interview board in UPPSC, Allahabad. 8 State Agricultural Universities for selection of Teaching and Research staff and acts as Chairman (nominated by ASRB) for promotion of technical, Scientist and Sr. Scientist in several ICAR institutions.

Role as a Guide:

04 Ph.D., 04 M.Sc. students and co-guide for 2 MD students (AIIMS, Bhopal). Served as member of Advisory Committees of a number of students in several SAUs.

International Exposure:

Visiting professor at International Rice Research Institute, Philippines-2003, Delegations and Travelling seminar for 14 days to Nepal, and Bangladesh-2001. International training at IRRI, Philippines, 2000.

Consultancy for customized fertilizer recommendation developed by Fertilizer Companies to register in FCO. **Acted as panellist for Agriculture and Food Security** and soil health management meetings for the Sustainable Development.

Home / About Us / Achievement

Achievement

- The Works have been performed/completed and in progress under modernization of agriculture university/farms i.e. Conditioned Controlled Horticulture Storage at Gwalior.
- Numbers of works completed and in progress under the head (Rashtriya Krishi Vikas Yojana) i.e. Threshing Floor, Implement Shed, Renovation of field labs. Chick pea Lab, Peagon pea Lab etc.
- The essential Renovation works have also been performed by RVSKVV Gwalior as per need at different Campuses/Centers.
- Numbers of works completed and in progress under KVK (ICAR) i.e. Administrative Building, Farmer's Hostel, Staff Quarters at Datia, Khargone, Neemuch, Bhind, Lahar, Sheopur, Morena, Badwani and Dhar etc.
- The Works have also been performed under Management of Soil health degraded land for sustainable agriculture.
- Numbers of works completed and in progress under Tribal Sub Plan (T.S.P.) at different centers.
- Numbers of works completed and in progress under Strengthening and Development of Agricultural Education i.e. International Hostel, Girls Hostel Agriculture Science Museum, Sports Complex, Examination hall at different centers.
- Water harvesting works taken in 7 KVKs viz Badwani, Jhabua, Mandsour, Neemuch, Rajgarh and Dewas etc.
- Numbers of works have been completed and are in progress under C-4(521) Mandi Board Marketing Federation Govt. of MP i.e. PH.D Class Room COA Gwalior.

Salient Features

The University has started PH.D. Programmers in department of Agronomy, Horticulture, Soil Science and Plant Breeding and Genetics under faculty of agriculture science Modern Laboratories, Modern Class Room, Library, Sports Facilities etc. are being developed.

Renovation of Colleges research laboratories modernization of Four Threshing Floor, Implement Shed & Seed Stores etc. have been performed similarly works have been performed in different Research programs on crop improvement such as wheat, chickpea, soybean, pearl millet, mustard, pigeon pea, cotton, sorghum, safflower medicinal and aromatic plants grapes and spices etc. natural resources management such as soil, water and forest etc. plant protection, fodder crops, horticulture crops, farm machinery and equipment and veterinary and animal husbandry are in progress. Five Zonal Agriculture Research Station are Morena, Khargone, Jhabua, Sehore and Indore and Four Regional Research Station are in Ujjain, Gwalior, Mandsour, Khandwa One Agriculture Research Station Bagwai and One Fruit Research Station is in Entkhedi Bhopal, One Horticulture Research Station Jaora (Ratlam) or One Salt Affected Soils Research Station is at Badwaha.

The Administrative Building/Farmers Guest House/Staff Quarters is addition and other facilities have been created at different colleges/centers.

NATIONAL SERVICE SCHEME

NATIONAL SERVICE SCHEME (NSS)

The NSS aims at academic expansion and personality development of students through community service. It works as a link between institution and community. To develop a sense of social and civic responsibility, It inculcates the group living and sharing, leadership qualities and democratic attitude. To develop the capacity to meet emergencies and natural disasters and practice national integration and social harmony.

It reflects the essence of democratic living and upholds need for selfless service and appreciation of other person's point of view and also shows consideration for fellow human beings. Welfare of the individual is ultimately dependent on the welfare of the society as a whole. College of Agriculture, Gwalior has one NSS units which is affiliated with Jiwaji University, Gwalior and 114 students enrolled as NSS volunteers during the session 2010-11. In addition to the routine activities, the NSS organised various activities throughout the year not only at their own level.

A number of activities were undertaken under the able guidance of Programme Coordinator (NSS) Dr. S.K. Badodiya and Dr. N.S. Bhadoria, Ex Programme Officer.

Objective of NSS :

The Main Objectives of National Service Scheme (NSS) are

- Understand the community in which they work.
- Understand themselves in relation to their community.
- Identify the needs and problems of the community and involve them in problem solving.
- Develop themselves a sense of social and civic responsibility.
- Develop the competence required for group –living and sharing responsibilities.
- Gain skills in mobilizing community participation.
- Acquire leadership qualities and democratic attitude.
- Develop capacity to adapt to emergency situation like natural disasters and
- Practice National integration and Harmony.
- On the whole NSS is Development of personality of students through Community Service.

Motto :

The motto of NSS is "NOT ME BUT YOU". It underlines that the welfare of an individual is ultimately dependent on the welfare of the society as a whole. This expresses the essence of democratic living and upholds the need of self-less service and appreciation of the other man's point of view and also consideration for fellow human beings. Therefore NSS volunteers shall strive for the well being of the society.

Symbol :

The NSS symbol is based on the "Rath Wheel" of the Konark Sun Temple of Orissa. The giant wheel portrays the cycles of creation, preservation and release and signifies the movement in life across time and space. The design of the symbol, a simplified form of Sun Chariot Wheel primarily depicts movement. The wheel signifies the progressive cycle of life. The symbol thus stands for continuity as well as change and implies the continuous striving for social change.

Badge :

The NSS symbol is embossed on the NSS badge. The NSS volunteers wear it while undertaking any programme or community service. The konark wheel in the symbol has eight bars, which represent the 24 hours of the day. Hence, the badge reminds the wearer to be in readiness for the service of the nation round the clock i.e. for 24 hours. The Red Colour in the badge indicates that the NSS volunteers are full of blood i.e. lively, active energetic and full of high spirit. The Navy Blue Colour indicates the cosmos of which the NSS is a tiny part, ready to contribute its share for the welfare of the mankind.

NSS DAY :

NSS was formally launched on 24th September 1969, the birth Centenary year of Father of Nation. Therefore, 24 September is celebrated every year as NSS Day with appropriate programmes and activities.

NSS Unit & Programme Officer :

One NSS Unit consists of 100 student volunteer guided by one Programme Officer who will be a faculty member. The Programme Officer is expected to motivate the student youth to understand the values and philosophy of NSS. The overall functions of Programme Officer are to help the students to plan, implement and evaluate the activities of NSS under his/her charge and give proper guidance and directions to the student volunteers.

NSS Student Volunteers :

Any student enrolled as a NSS volunteer, should put in at least 240 hours of useful social work in a continuous period of two years (i.e. 120 hours per year). A work diary is to be maintained by each NSS volunteer, which will help him/her in the assessment in his/her performance. Such volunteer is eligible to get NSS Service Certificate from the colleges.

Activities of NSS Volunteers and Adoption of Village :

The Activities under NSS are two-fold, viz. i) Regular activities, which are undertaken during the working days of the semester, and ii) Special Camping activities for 07 days duration in the adopted village/urban slum during vacation.

Each NSS unit is expected to adopt a nearby village/slum and work for its all round development. Regular activities and special campus should preferably be organised in the adopted village/rural unit/slum for this purpose.

NATIONAL CADET CORPS

NATIONAL CADET CORPS (NCC)

During the Independence movement, leaders of our nation had realized the need to create a national level youth organization, to train and groom young boys as responsible citizen and future leader of our great country in all walks of life, including the defence forces. Consequently, a committee under Shri HN Kunzru was set up in 1946 under the directives of the first Prime Minister, Pandit Jawaharlal Nehru, to consider the establishment of a nationwide cadet corps, which was born through the Act of Parliament on July 15, 1948. The first Prime Minister of India, Pandit Jawaharlal Nehru presided over the function of raising the first NCC Unit at Delhi on the last Sunday of Nov. 1948. This day is traditionally celebrated as the 'NCC Day'.

AIMS :

To develop, character, courage, comradeship Discipline, leadership, secular, outlook spirit of adventure and sportsmanship and the Ideals of selfless service amongst the youth of the country. To create Human Resources of organized trained and motivated youth to provide leadership in all walks of life and always available for the service of the Nation.

To provide a suitable environment to motivate the youth to take up career in the armed forces.

CARDINALS OF DISCIPLINE :

1. Obey with a smile.
2. Be punctual.
3. Work hard and without fuss.
4. Make no excuses and tell no lies.

MOTTO :

Unity and Discipline

NCC ACTIVITIES :

COLLEGE OF AGRICULTURE, GWALIOR

Placements

Counseling & Placement Cell

- Students after admission to Undergraduate and Post-Graduate degree programmes are assigned to teachers for counselling and guidance.
- Orientation Programme for students is organized in each College at College level.
- Semester Progress report of every student is sent to their parents by advisors.
- Students' advisement for foreign study and scholarship is provided.
- The University has a full-fledged Placement Cell under the Dean Student Welfare to arrange for campus interviews for placement of graduate and post-graduate students.
- The cell also counsels students on the availability of scholarships, avenues for higher studies and career opportunities.

Placement of University Students

- The Placement Cell has been successfully organizing campus interviews and seminars on carrier opportunities.
- Our students have been selected by reputed organizations, such as :

- Shriram Bio seed Genetics India Limited
- Dhanuka Agritech Limited
- Rajiv Gandhi Mission For Watershed Management
- Pioneer Seeds Pvt. Ltd.
- Dhan Foundation
- Pradan
- Bayer Crop Science Ltd.
- Haryali Kissan Bazar
- Monsanto
- Vardaan Biotech Pvt. Ltd
- Nagarjuna Fertilizers and Chemicals

- Reliance Dairy Food Ltd.
- Allahabad Bank
- Bank of India
- Bank of Baroda
- Central Bank of India
- HDFC Bank
- ICICI Bank and
- Syndicate Bank
- Union Bank of India
- Dena Bank
- State Bank Of India Summer Internship
- Reliance Retail Ltd-Dairy
- Central Warehouse Corporation Ltd.

Year Wise Placement

- 102 students have been placed in 2008-09
- 267 students have been placed in 2009-10
- 314 students have been placed in 2010-11
- 154 students have been placed in 2011-12
- 181 students have been placed in 2012-13
- 291 students have been placed in 2013-14
- 109 students have been placed in 2014-15
- 133 students have been placed in 2015-16
- 216 students have been placed in 2016-17

Glimpses of Placement Activities

Campus Interview being conducted for the placement of students

Tutorial Cell

The Faculty members of the university take regularly extra classes for providing guidance to students for JRF, SRF and NET examination of ICAR and several other examinations. Each department has developed model question bank to help the students. In addition to the above, the students are also subjected to:

- Training on Skill Improvement
- Training on Personality development
- Mock-Interviews-Group discussions
- Interview-specific trainings
- Job-Oriented trainings

Placement & Information Bureau

We produce highly skilled, competent and qualified human resource every year in the form of Agriculture/Horticulture graduates and postgraduates and doctorates. Ever since the establishment of this university in the year 2008, different institutions, e.g. Nationalized banks, Government departments, Cooperatives, NGOs, Corporate sector, Agro-based MNCs etc have selected our students (over 1767 in number), for senior and middle order jobs, who were pursuing their graduate degree and post-graduate degree programmes in different subjects

The university is growing very fast in the dynamic leadership of an internationally renowned Scientist, Professor S.K. Rao, and Vice Chancellor of this university. His untiring efforts have enabled us to make collaborations with many International Research Institutions where our manpower will get opportunities to upgrade their skills. Our highly qualified and trained human resource, absorbed by different institutions, is working for the better cause of the society in the relevant fields. We offer our services by providing better human resources for the benefit of the society.

We offer our services by providing better human resources for the benefit of the society.

Agricultural Economics

Background :

The Department of Environmental Science has emerged from the prior Department of Biochemistry, Physiology & microbiology in the year 2016. This will accelerate the pace of crop improvement with regard to change in climatic resilience resulting in higher productivity, quality and sustainability in agriculture, thereby improving the livelihood of farming community.

Profile :

The Department of Environmental Sciences was established in January 2016 at College of Agriculture, RVSKVV, Gwalior. The PG programme in Environmental Sciences will start from the session 2016-17 with admission of 4 students. The department has one UG lab & one PG lab at present with few instruments. Some of the required /desired instruments necessary to carry out the research will be purchased in coming time. There is one classroom equipped with one LCD projector, Screen, Student's furniture and boards.

Mandate :

- To impart Environmental knowledge to students and develop research and evaluation programmes.
- To develop bioremediation technologies for industrial and hazardous waste contaminated ecosystems along with recycling and reuse of industrial waste water for agriculture to check the degradation & loss of fertility.
- To find out the impact of industrial waste on groundwater contamination and find the subsequent bio-remedies.
- Studies on Carbon Sequestration and Carbon trading with reduce global warming effect

Vision:

- To offer structured degree programmes in Environmental Sciences.
- To develop technologies to mitigate environmental problems for sustainable agriculture
- To assess the possibility of recycling solid and liquid wastes for agricultural applications.
- To develop scientific man power for assessing the environmental problems and to suggest suitable remedies.
- To develop strategies for conservation and restoration of biodiversity and the healthy resilience of natural ecosystem.
- To establish a centre for culture collection for environmentally important microorganisms.
- To create Data base on Environmental Pollution and mitigation strategies pertaining to the State of Madhya Pradesh.

About DRS RVSKVV

DIRECTORATE OF RESEARCH & SERVICES

The "Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya" (RVSKVV), Gwalior was established by Govt. of Madhya Pradesh on August 19, 2008 (Madhya Pradesh Ordinance No. 4 of 2008 Extraordinary Gazette No. 507 dated 19th August, 2008) and enacted as Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya Act, 2009 (Madhya Pradesh Act No. 4 of 2009 dated 12th February, 2009). The State Agriculture University (SAU) is located at Raja Pancham Singh Marg, Near Akashwani, Gwalior, Madhya Pradesh.

MISSION

To conduct research activities for enhancing productivity, profitability and sustainability of agriculture and allied sectors and improving the livelihood of the people of the state of Madhya Pradesh.

MANDATE

- Collection, conservation, evaluation and maintenance of germplasm of different crops.
- To conduct the hybridization programme for development of high yielding, biotic & abiotic stress tolerant/resistant varieties of different crops.
- To conduct basic, strategic, applied and anticipatory research in the field of agriculture and allied sciences.
- To conduct research for food, nutritional & livelihood security of the farmers/people of the state.
- To promote collaborations between international and national institutions for high quality research.
- To provide consultancy services to stakeholders.
- To provide the developed & refined technologies to KVKs, line departments and extension personnel's for dissemination amongst the farmers.
- Production of disease free and genuine planting material/seed.
- Generation of income for Vishwa Vidyalaya.

	Sirsod	2011

Agro-climatic zone based research priorities

Agro-Climatic Zone	Features	Priority Crops and Cropping Pattern	
Gird zone	Soil	Alluvial • Rapeseed & Mustard, Pearl millet, Sorghum, Wheat, Chickpea and Sesame. • Emerging- Vegetables & Fruit & Fodder crops. • Fallow – Mustard & Pearl millet – wheat/ Chickpea.	
	Rainfall		566 – 977 mm
	Altitude		52-529 msl
Malwa Plateau	Soil	Deep black soil Vertisol • Soybean, Chickpea, Wheat, Maize and Sorghum. • Emerging- Vegetables, Flowers, Fruits, Spices & Fodder crops. • Soybean – Wheat/ Chickpea	
	Rainfall		800-1200 mm
	Altitude		450-675 msl
Nimar valley	Soil	Deep black soil : Vertisol • Cotton, Maize, Sorghum, Chickpea, Wheat and Pigeon pea. • Emerging- Chillies & Tomato. • Cotton - Sorghum	
	Rainfall		600 – 800 mm
	Altitude		450 – 700 msl
Jhabua hills	Soil	Skeleton gravely • Maize, Sorghum, black gram, Wheat & Chickpea. • Emerging- Vegetables & spices. • Mono – cropping	
	Rainfall		600 – 800 mm
	Altitude		450 – 700 msl
Vindhyan	Soil	plateau Medium black soil: Vertisol • Soybean, Wheat, Chickpea, Lentil, Pea, Pigeon pea, Black gram. • Emerging- Vegetables, Flowers & Fruits • Soybean- Wheat/Chickpea/Lentil.	
	Rainfall		1000-1200 mm
	Altitude		350 – 600 msls
Bundelkhand zone	Soil	Clay loam • Wheat, Chickpea, Sorghum, Sesame, Barley, Vegetable and Spices. • Soybean-Wheat/Chickpea.

Important Alerts

Future Thrusts

A. Crop Improvement

- Breeding for early maturity, high yield with resistance against biotic and abiotic stresses in crops.
- Increasing the sustainability in crop yield through development of improved varieties by efficient utilization of genetic resources.
- Safeguarding the available biodiversity.
- Enhancement in application of biotechnological tools and products.
- Maintenance breeding of seed chain crop varieties and breeder seed production.
- Collection, evaluation, characterization, documentation and conservation of spices diversity and their utilization for improvement in seed yield.
- Improvement in medicinal and aromatic plants.
- Application of biotechnological tools for genetic enhancement in crops.

B. Crop production

- Strengthening of research on conservation agriculture to protect soil, water and environment pollution.
- Standardization of integrated crop production and protection techniques for changing/emerging cropping systems.
- Standardization and promotion of integrated farming approach for better livelihood security.
- Technique standardization for mechanization in agriculture.
- Molecular characterization and development of crop specific new strains of Rhizobium & PSB and promotion of PGPR.
- Soil health management and bio-farming.
- Identification of IPNM, IWM and IPM techniques for spices and vegetables.
- Standardization of production and protection techniques for grape and other dry land fruits.
- Identification of production techniques for medicinal and aromatic plants.
- Fodder production and conservation techniques.

C. Crop protection

- Development of forecasting modules for incidence of diseases and pests in changing climatic scenario.
- Molecular identification of races/ variants of major diseases and pests of crops and standardization of IPM techniques.
- Host plant resistance- mechanism and sources.

D. Value addition and marketing

- Establishment of production units for bee keeping, vermin compost, bio-fertilizers and bio-agents with standardization of techniques for maximum production.
- High-tech horticulture.
- Quality seed and seedling production of vegetables and spices.
- Development of pre and post harvest technologies for value addition.
- Standardization and promotion of low cost poultry and animal feed.
- Standardization and promotion of collective marketing and linkage strengthening.
- Export promotion.

E. Seed Production

- Developing / strengthening and implementing diverse model of seed production / distribution / quality control systems.
- Enhancing seed production and distribution capabilities.
- Improving SRR by increased distribution and timely availability of quality.
- Augmenting quality seeds availability of improved varieties to farmer.
- Developing mechanism and system for ensuring test stock seed production and supply of all newly identified / released varieties.
- Improving and sustaining an effective and efficient functioning of seed chain by strengthening monitoring mechanism and putting on course correction system.

About DES RVSKVV

Overview

Directorate of Extension Services (DES)

Directorate of Extension Services was started in August 2008 with the inception of the university. Directorate has a key role in dissemination of latest technologies in the field of crop production, crop improvement, cropping system, nutrient management, plant protection, horticultural crops management, agro-forestry, wasteland management, watershed management, medicinal and aromatic plants, cattle and poultry management, agricultural machinery, post harvest technology, value addition and natural resource management. The technologies emanating from research programmes of Rajmata Vijayaraje Scindia Krishi Vishwavidyalaya and other leading agricultural institutions of the country and abroad for the welfare of farming community are being popularized through trained extension scientists to minimize the existing technological gaps for enhancing productivity, profitability and sustainability of agricultural production systems and living standard of rural people.

Mission

Directorate of Extension Services is committed to serve farmers through well - organized network of KVKs covering six agro climatic zones of the State. The directorate has been engaged in transfer of agricultural and allied technologies for the farmers by adopting various direct, indirect and participatory extension approaches through KVKs. The motto of the university is to reach the unreached through efficient extension system in Madhya Pradesh.

Role of Directorate of Extension

- Assessment, refinement and transfer of agricultural technologies through KVK network.
- Providing feedback to the research system.
- Up gradation of knowledge and skills of field extension functionaries and farmers.
- Dissemination of technologies through print and electronic media.
- Catering needs of farming community through single window system.
- Establishing linkages and convergence with line departments.
- Regular monitoring and review of KVK activities and technological backstopping of KVK scientists and helping them in formulating action plan as per the thrust of the district.

Human Resources Development

Human Resource Development (HRD) has played key role in the progress of agriculture. The University has given high priority to HRD activities with training and communication support to the state department of agriculture and allied sectors viz: horticulture, fisheries, animal science etc. and non - government organizations for proper execution of extension programmes.

Joint Diagnostic Team

The joint diagnostic team has been constituted with scientists and officials of various development departments. The team visit the farmer's field and render farm advisory services and remedial measures for field problems.

Women Empowerment

Directorate of Extension has been working on various issues related to women empowerment. The focus areas are: drudgery reduction, upgradation of knowledge and skills of farmwomen and school dropout girls for employment and income generation for farmwomen and school dropout girls. Women empowerment cell organizes training programmes, demonstrations and sangosthies on regular basis.

Kisan Melas and Kisan Sangosthies

Organization of Kisan Mela and Krishak Sangosthi is the regular activity of Krishi Vigyan Kendras to enable the farmers, farmwomen and rural youths with latest agricultural technologies. The special features of these Kisan Melas are: farmer - scientist interaction through Krishak Sangosthi, display of latest technologies, providing quality seed and planting material etc. which has direct impact on farming community.

Scientific Advisory Committee Meeting

Scientific Advisory Committee (SAC) meetings are being organized twice in a year to review the action plan, progress, field and administrative problems of KVKs. The SAC has been constituted formally under the chairmanship of Head of Institution and members from all departments working in agriculture and allied areas, progressive farmers, representative of Prasar Bharti through Doordharshan and all India Radio and NGOs working in the district. The SAC is mandated to finalize action plan on regular basis.

Services Offered

- Capacity Building
- Advisory Services
- Diagnostic Services
- Sale of quality seed and bio - fertilizers
- Sale of quality planting material
- Sale of scientific publications

Future Plans

Agricultural Museum: A cutting edge display of modern agricultural technologies, rich history and heritage of the University will be displayed in the educational museum being established at university headquarters under Directorate of Extension Services.

Agricultural Technology Information Centre (ATIC): Establishment of ATIC has been envisaged in the premises of RVSKVV, Gwalior to cater the need of farming community in terms of technological information, products offered for sale and services by the university through single window system.

Information and Printing Centre: Establishment of Information and Printing center has been envisaged in the premises of RVSKVV Gwalior. It shall publish scientific and other publications of the university as per need.

Community Radio Station: The University is in process of establishing a community radio station to serve the farmers and local community.

- The perspective plan for extension services is to follow a new strategy for e-connectivity and cyber extension to drive full advantage of the available human & material resources.
- Launching of computer KIOSKS (Touch screen computerized information system) is the new vision to serve the agriculture community.
- Regular efforts are made to explore public private partnership in improving efficient transfer of technologies.

DES_ Organization Structure & Staff

Directorate of Extension Services is responsible for planning, execution and monitoring of extension activities executed through Krishi Vigyan Kendras established in 21 Districts; out of 26 districts of western Madhya Pradesh spread in six agro - climatic zones under University jurisdiction. Directorate is working to bridge the gap between potential & actual production and to increase self employment opportunities for the rural youth through network of KVKS. KVKS are headed by a Senior Scientist and Head accompanied by a team of six scientists from various disciplines of agriculture. The whole networks of available human resources at university headquarters as well as at KVKS are working as per the thrust areas of the districts under its jurisdiction.

Krishi Vigyan Kendra

Farm Science Centre

VISION: Science and technology led growth leading to enhanced productivity, profitability and sustainability of agriculture.

MISSION: Farmer centric growth in agriculture and allied sectors through application of appropriate technologies in specific agro - ecosystem perspective.

MANDATES

Assessment, refinement and demonstration of technology/ methodology/ products

Activities of KVKS

1. On farm testing to identify the location specificity of technologies in various farming systems.
2. Frontline demonstrations to establish production potentials of newly released technologies on farmers fields and provide feedback.
3. Training of farmers and farmwomen to update their knowledge and skills in modern agricultural technologies and training of extension personnel to orient them in the frontier areas of technology development.
4. Work as resource and knowledge centre of agricultural technology for supporting initiatives of public, private and voluntary sector for improving the agricultural economy of the district.
5. Create awareness about frontier technologies through large number of extension activities like Farmer fair, Field day, Strategic campaign, Ex - farmers meet, etc.
6. The seed and planting materials produced by the KVKS also be made available to the farmers.
