Introduction

Madhya Pradesh has diverse climates and soil for cultivation of horticulture crops providing ample opportunities for the development of fruit industry but the extreme challenge in the present scenario is to produce abundant fruits to feed the ever-increasing human population. This demands infusion of technological intervention for an efficient utilization of resources for deriving higher output per unit of input with excellent quality of the produce within short span of time. In the present era of open economy; it has become increasingly necessary that our produce is competitive, both in the domestic as well as in international markets. This would be possible only through deployment of high-tech application and precision farming methods. The fruit and vegetable growing not only support to face these problems with increasing the farmers' income but it also helps to lift the greenery in our blue planate. The proven modern technologies are now available for growing valuable crops utilizing space nearby home at terraces, balcony etc. The concept is more important in the present scenario of unavailability of reliable vegetables and horticultural products to consumers. The future looks bright for innovative entrepreneurs, who possess the skills and experiences needed for the challenges of this entrepreneurship. Entrepreneurship is the capacity of innovator and calibre to introduce innovative techniques in business operations. It is only the innovative entrepreneur who has the power to dream, transform new situations into thoughts and resolve them into action. Thus, entrepreneurs through alternate horticulture based farming system can play an important role in increasing production and in turn contribute for economic development of the country.

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior is organizing, One-day National Webinar on "Entrepreneurship opportunities through alternate horticulture based farming system" to be held on July 16, 2020. Renowned experts from across the country will share their expertise on innovative ideas and experiences on modern cropping technologies under open and protected condition which have the significant role in utilizing resources and in improving the income of the farmers. The students and faculty may join with us and participate in the webinar.

Shri Pushkar Singh
Commissioner,
Dept. of Horticulture and FP,
Bhopal

Dr. Naveen Patle
Deputy Commissioner (Hort.),
GOI, New Delhi

Dr. Prakesh Patil
Project Coordinator,
AICRP on fruits,
ICAR-IIHR, Bengaluru

Dr. Manjunath B.L.
Principal Scientist,
ICAR-IIHR, Bengaluru

Dr. S.K. Singh
Head, Division of
FHT, IARI, New, Delhi

Dr. K. K. Srivastava
Principal Scientist,
ICAR-CISH, Lucknow

Dr. G.L. Sharma, Associate
Professor & Incharge,
CoE for Protected Cultivation
IGKV, Raipur

Shri Rupesh Jain,
Agronomist, Evergreen
Rooftop Agritech, Indore

Time (Hrs)	Topics	Speakers
10:00	Welcome	Dr. M. P. Jain, Director Research Services, RVSKVV, Gwalior
10:10	Inaugural Address	Dr. S. K. Rao, Hon' ble Vice Chancellor , RVSKVV, Gwalior
10:20	Chief Guest Remarks	Prof. V.S. Tomar, Founder VC, RVSKVV, Gwalior
10:30	Introduction to status of horticulture crop and major constant in doubling the farmer income	Shri Pushkar Singh , Commissioner, Department of Horticulture and Food Processing, Bhopal
11:00	Present scenario of horticulture crop and approaches for improvement	Dr. Naveen Patle, Deputy Commissioner (Hort.), Government of India, New Delhi
11:30	High Density Planting System in Fruit Crops	Dr. Manjunath B.L. Principal Scientist, ICAR-IIHR, Bengaluru
12:00	Multilayer vegetable cropping system in irrigated ecosystem	Dr.Prakesh Patil, Project Coordinator, AICRP on Fruits, ICAR-IIHR, Bengaluru
12.30	Technologies for container fruit growing for urban and semi urban areas	Dr K. K. Srivastava, Principal Scientist, ICAR-Central Institute for Subtropical Horticulture, Lucknow
01:00	Space and time utilization in new and old orchards: an income improving approach	Dr. S.K. Singh, Head, Division of Fruits and Horticultural Technology, IARI, New, Delhi
02.30	Modern systems of Horticultural crop cultivation in urban and semi urban areas	Shri Rupesh Jain, Agronomist, Evergreen Rooftop Agritech, Indore
03:00	Protected cultivation technology for enhancing farmer's income in Central India	Dr. G.L. Sharma, Associate Professor & Incharge, Centre of Excellence for Protected Cultivation and Precision Framing, IGKV, Raipur
03:30	Success stories	Experience of 5 innovative farmers from Dhar, Jhabua, Khargone and Badwani Districts
04:00	Vote of thanks	Dr Nitin Soni, College of Horticulture, Mandsaur

Patron	Prof. S.K. Rao, Hon'ble Vice Chancellor, RVSKVV, Gwalior
Co-Patron	Dr. Mridulla Billore, Dean, Faculty of Agriculture, RVSKVV, Gwalior Dr. M.P. Jain, Director Research Services, RVSKVV, Gwalior
Conveners	Dr. A.K. Singh, Director Instructions, RVSKVV, Gwalior Dr. S. N. Upadhayay, Director Extension Services, RVSKVV, Gwalior Dr. D.H. Ranade, Dean, College of Horticulture, Mandsaur Dr S. S. Tomar, Associate Director Research, RVSKVV, Gwalior Dr R. K. S.Tomar, Joint Director Extension, RVSKVV, Gwalior Dr H. P. Singh, Deputy Director Research, RVSKVV, Gwalior
Organizing Secretary	Dr. Nitin Soni, College of Horticulture, Mandsaur Dr. S.C. Srivastava, Directorate of Research, RVSKVV, Gwalior Dr Akhilesh Singh, Co-PI, IDP-NAHEP, RVSKVV, Gwalior
Coordinators	Dr. K.C. Meena, College of Horticulture, Mandsaur Dr. K. Alam Khan, College of Horticulture, Mandsaur
Co-Coordiators	Mr. D.K. Patidar, College of Horticulture, Mandsaur Mr. Vinod Patel, RVSKVV, Gwalior
