## CENTRE FOR AGRIBUSINESS INCUBATION AND ENTREPRENEURSHIP, RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR

Centre for Agribusiness Incubation and Entrepreneurship is a joint initiative of Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior and National Bank for Agriculture and Rural Development. Established in the year 2020, CAIE is one of its kind Agribusiness Incubator based in Central India with exclusive focus on Agriculture and allied sectors.

The Centre has become a hub of innovation and entrepreneurship by creating quality centric startups, world-class infrastructure, knowledge-based ecosystems, intellectual human resources, and above all a culture of competition and cooperation.

CAIE, RVSKVV, Gwalior plans to establish the Central Processing Line in the existing buildings of RVSKVV, Gwalior. The central processing line will facilitate in increasing awareness about food processing among all stakeholders, potential entrepreneurs can immediately start their business with this operational units. It will also help in creating a start up ecosystem where CAIE, RVSKVV, Gwalior will facilitate backward integration with our registered FPOs/farmers for raw material sourcing and forward integration by providing marketing support to agri entrepreneurs.

### Description of the machines proposed to be installed in the existing building of RVSKVV, Gwalior for establishment of Central processing line of CAIE, RVSKVV, Gwalior

S.No.	Name of Machine	Description
1.	Poha production unit	MP is a major producer of rice, poha plant requires low investment and has huge market demand.
2.	Multipurpose: Granule and Powder Packing Machine	For packing granular and powder products such as Spices powders, Poha, pulses etc.
3.	Vacuum Packing Machine	Vacuum packaging is extensively used in commercial applications to preserve food. Technically it is considered a form of modified atmosphere packaging (MAP). This is any form of packaging the atmosphere around the product is altered from the external atmosphere. It is one of the best method of food packaging as it Increases Shelf Life, Reduces Product Loss, Seals in flavours/Aroma and colour.

4.	Tomato Puree Processing Line	Gwalior, Shivpuri and adjoining areas are rich tomato growing belts, in the harvest season there is a glut in market. Tomato puree has huge industrial demand and it is one of the best preservation technique for tomatoes
5.	Cryogenic / Conventional spice pulverising machine	Madhya Pradesh is one of the major producer of seed and aromatic spices. The powdered spices is used everyday in all household and has huge market demand.
6.	Cold Press Oil Machine	Cold-pressed oils are not just limited to basic nutritional needs, but they have several additional health benefits. They belong to the category of functional products and contain several bioactive substances. Cold pressed oil are sold at much higher rates than conventional oils
7.	Namkeen Making Machine	Unit to make innovative snacks with Millets and coarse grains
8.	Cattle feed plant	Good quality, nutritious and affordable animal feed is in huge demand in the area. There is ample supply of raw materials required to make the animal feed.
